● ABOUT MYSELF

I have been an IT enthusiast since my childhood. I used to repair computers for my relatives and friends. That early passion grew into my current role as a DevOps and Cloud Engineer, where I turn manual processes into efficient workflows.

I'm also a strong believer in teamwork. I enjoy collaborating, bringing a calm and understanding approach to every interaction and helping others find common ground, always aiming to contribute to a positive team environment

● WORK EXPERIENCE

03/2023 - CURRENT - CHERI (TO), ITALY

DEVOPS AND CLOUD ENGINEERSUNNYVALE SRL

Tier 1 support and primary point of contact for Intesa Sanpaolo's private hybrid cloud infrastructure automations:

- Ansible automation development and support for OpenShift related resources, middleware (JBoss, Apache, WebLogic) databases (SQL Server, Postgres) and others, with Molecule testing and collection creation.
- GCP/Azure/AWS administration and support with Terraform and IaC methodologies.
- RHEL deployment on VMware with Ansible and RedHat Satellite.
- Windows Server deployment and configuration with SCCM/Unattend scripts/DNS Management/Active Directory.
- Scripting and automation in Bash and Python, also with process automation tools such as Pagerduty/Rundeck and Ansible AWX.

SQL Server and MQ related Automations at Unicredit:

- Engineered a comprehensive suite of automations to deploy SQL Server Instances and Databases, including Backup/Restore/Reinstallation and Downgrade of instances.
- Led a campaign that significantly reduced SQL Server license costs by migrating non-production instances to the Developer Edition, minimizing downtime and virtually eliminating human error.
- Developed a robust automation package to manage and update MQ Client/Server/FTE installations, which was subsequently used to resolve vulnerabilities across the infrastructure.
- Modernized an outdated internal Java Application with a more efficient Ansible automation, also drafting the project documentation and economic proposal.

11/2021 - 03/2023 - MILAN (HYBRID), ITALY

FULL-STACK DEVELOPERCAPGEMINI

As a consultant for BNP Paribas Asset Management:

- Worked on a comprehensive cloud migration project, successfully transitioning legacy on-premise monolith applications to the bank's private cloud environment utilizing IBM technology.
- Engineered and developed robust microservices in C# (.NET 6), enhancing application modularity, scalability, and performance.

- Implemented frontend interfaces using Angular, improving user experience and application functionality.
- Standardized application deployments through the creation of optimized Docker images and Kubernetes manifest files.
- Established and maintained CI/CD pipelines, incorporating DevSecOps practices, to automate the build and secure delivery of applications to Kubernetes on IBM Cloud.
- Ensured adherence to high code quality standards by integrating SonarQube to meet the bank's defined Quality Gates.
- Proactively managed application security by implementing Sonatype NexusIQ for comprehensive vulnerability scanning.

02/2021 - 09/2021 - TURIN, ITALY

JUNIOR DEVOPS ENGINEERS SCAI FINANCE

- Applied Agile and Scrum methodologies and Project Management principles to daily workflows, using Azure DevOps for project tracking and collaboration.
- Developed Business Intelligence and data visualizations solutions using Tableau Desktop and Prep Builder.
- Contributed to develop and old application with Visual Basic.
- Managed and optimized CI/CD pipelines within Azure DevOps, ensuring quick software delivery processes.
- Implemented Infrastructure as Code (IaC) principles for cloud resource provisioning and management, using ARM Templates.
- Worked on a microservices-based .NET 5 cloud application for monitoring KPIs, deployed on Azure App Services with CI/CD pipelines.

● **EDUCATION & TRAINING**

11/2019 - 07/2021 - TORINO, ITALY

IT DIPLOMA ON CLOUD, BIG DATA & IOT- ITS ICT FOUNDATION FOR INFORMATION AND COMMUNICATION TECHNOLOGIES

Containers (Docker/Kubernetes), Microservices (Spring), Database SQL,(SQL Server 2019/Postgres/MySQL), NoSQL e Platform (DynamoDB/CosmosDB), Big Data (Hadoop), CI/CD, IoT, NodeJS, Java, .NET e C#, Data Analytics with Python

Final grade: 98/100 | **Level in EQF:** 5 | **Website:** <https://www.its-ictpiemonte.it/>

TURIN, ITALY

HIGH SCHOOL DIPLOMA IN IT- ITTS C.GRASSI

Level in EQF: 4 | **Website:** <https://www.itisgrassi.edu.it/>

● **PROJECTS**

Personal Portfolio Website Developed and deployed a personal portfolio website using Next.js, leveraging a CI/CD pipeline for automated deployment to GitHub Pages:

<https://itsmedigio.github.io/>

● **LANGUAGE SKILLS**

Mother tongue(s): **ITALIAN**

UNDERSTANDING		SPEAKING		WRITING
